Projects

Ecommerce Site

Built a full ecommerce website with a landing page, shopping cart, and web store. Includes a check out feature and keeps track of items in the user's shopping cart in local storage. Hosted with a live domain for easy access and use. Tools used were CSS, HTML, Bootstrap, and JavaScript.

URL: <https://skybluerecords.netlify.app/>

Source Code: <https://github.com/jamiegist/music-store>

Pokemon Generator Bot

Built a bot in Python that randomly generates one of the original 151 Pokemon and returns it to the user when called in Discord.

GitHub repository is: <https://github.com/jamiegist/pokemon-bot.git>

Technologies and Other Skills

HTML, CSS, JavaScript, TypeScript, React JS, Python, Python turtle, Git, Github, Material UI, Bootstrap

Education

Rutgers University

Bachelor of Arts

Majored in English Literature and minored in Psychology
