Education

Northeastern University - Boston, MA

Master of Science in Information Systems

September 2025 - present

Rutgers University - New Brunswick, NJ

Bachelor of Arts - English Literature with minor in Psychology

2015-2019

Franklin High School - Somerset, NJ

High School Diploma

2011-2015

Personal Projects

Tarot Card Reader

- Built a tarot card reading app using React.
- Uses data in JSON object format to store the deck information, pulling a new card any time the player hits the button.
- Shows the user a 3-card spread with card meaning interpretations.
- Images from the Rider-Waite tarot deck.

Source Code: <https://github.com/jamiegist/tarot>

War Card Game

- Built a card game using Python and Tkinter for the GUI.
- Contains logic for the card deck, player, and computer hands and controls the flow of the game.

Source Code: <https://github.com/jamiegist/card-game>

Wholesome Meme Generator

- Random meme generator using an API that pulls from the r/wholesomememes subreddit and displays it. Automatically refreshes after 30 seconds for a new meme.
- Built with Python, Flask (to run the website on a server), and HTML (for the actual webpage).

Source Code: <https://github.com/jamiegist/meme-generator>

Skills

Languages: JavaScript, Python

Frameworks: React Native, Bootstrap, Tailwind

Version Control: Git

Other: Node.js, Firebase, React,

AI Tools: GitHub Copilot, Google Gemini
