Northeastern University - Online

Master of Science in Information Systems

September 2025 - present

Rutgers University - New Brunswick, NJ

Bachelor of Arts - English Literature with minor in Psychology

2015-2019

Franklin High School - Somerset, NJ

High School Diploma

2011-2015

Personal Projects

War Card Game

- Built a card game using Python and Tkinter for the GUI.
- Contains logic for the card deck, player, and computer hands and controls the flow of the game.

Source Code: <https://github.com/jamiegist/card-game>

Meme Generator

- Random meme generator using an API that pulls from the r/wholesomememes subreddit and displays it. Automatically refreshes after 30 seconds for a new meme.
- Built with Python, Flask (to run the website on a server), and HTML (for the actual webpage).

Source Code: <https://github.com/jamiegist/meme-generator>

Photography Portfolio Site

- Photography portfolio site built for a small photography business.
- Includes links to other social media platforms, where to buy prints, and navigation for the featured images in the portfolio.
- Hosted with a live domain for easy access and use.
