Projects

Tarot Card Reader | [View App](#) | *React, Vite, JavaScript*

- Developed a responsive web application featuring a three-card spread with dynamic interpretation logic and card reversal probability.
- Engineered custom CSS 3D animations (perspective, backface-visibility) to create realistic card-flipping effects and a fluid user experience.
- Implemented staggered reveal delays and responsive grid layouts to ensure a "magical" and cohesive UI across mobile and desktop devices.

Photography Website | [View App](#) | *React, CSS3, API Integration*

- Designed a high-fidelity, mobile-responsive portfolio featuring a curated minimalist black-and-white aesthetic.
- Integrated a third-party API for contact form processing, enabling direct-to-email communication.
