Education

Northeastern University - Boston, MA

Master of Science in Information Systems

September 2025 - present

Rutgers University - New Brunswick, NJ

Bachelor of Arts - English Literature, minor in Psychology

2015-2019

Franklin High School - Somerset, NJ

High School Diploma

2011-2015

Personal Projects

Tarot Card Reader

- Built a tarot card reading app using React, Vite, and JavaScript.
- Uses data in JSON object format to store the deck information, pulling a new card any time the player hits the button.
- Shows the user a 3-card spread with an interpretation of the cards.

Source Code: <https://github.com/jamiegist/tarot>

Photography Website

- Built a website for a photography business.
- Features a prominent homepage, a link to the portfolio of work, and a contact form that sends an email to the owner's email address.
