Jamie Gist

Front-End Developer | React, JavaScript, Responsive Design

jamie.gist.7@gmail.com | 917-242-2071
Portfolio | **GitHub** | **LinkedIn**

Summary

Front-End Developer building responsive, interactive web applications with React, JavaScript, and modern component architectures. Currently completing a technical program at Northeastern University (Dec 2026) with hands-on experience in state management, UI/UX design, and performance optimization.

Education

Northeastern University – Master of Science in Information Systems – Boston, MA

Expected Dec 2026

Coursework: Database Management, Application Testing, UI/UX Design

Rutgers University – Bachelor of Arts in English Literature (minor in Psychology) – New Brunswick, NJ

2019

Projects

Tarot Card Reader | **View App** | React, Vite, JavaScript

- Built an interactive tarot card reading app with randomized deck shuffling, card reversal logic, and smooth CSS flip animations that respond to user clicks.
- Designed a fully responsive layout using CSS Grid that adapts seamlessly from mobile to desktop.
- Managed complex state for card selection, rotation, and reading history using React hooks.

Spectral Shots Photography | View App | React, Tailwind CSS, Vite, TypeScript, TanStack Router

- Built a photography portfolio site with TypeScript for type-safe components and TanStack Router for smooth page navigation.
- Designed a mobile-first, responsive gallery using Tailwind CSS with optimized image loading and grid layouts.

- Structured reusable React components to handle dynamic photo galleries and filtering by category.

Skills

Languages: JavaScript (ES6+), HTML5, CSS3, TypeScript

Frameworks & Libraries: React, React Native, Node.js, Tailwind CSS

Build Tools & Version Control: Vite, Git, GitHub, Bitbucket, Babel

Design & Prototyping: Responsive Design, Mobile-First Development, UI/UX Principles, Adobe XD, Figma

Architecture & Optimization: Component-Based Architecture, Single-Page Applications (SPA), Code Optimization, Client-Side Rendering

Workflow & Collaboration: Agile/Scrum, Jira, Slack, Microsoft Teams

---

Other Experience

Barista
Instawork - New York, NY
July 2026 - Present

- Adapted quickly to diverse client environments (corporate offices, luxury hotels, large-scale events), maintaining service quality under tight timelines and shifting requirements.
- Followed precise recipes and health code standards across high-volume shifts, ensuring consistency for repeat corporate clients.
- Managed station setup, inventory restocking, and sanitization during peak service hours.

Lead Dishwasher
Compass @ Google - Seattle, WA
December 2025 - July 2026

- Led task delegation and workflow adjustments for the dishwashing team during high-volume service, improving throughput and maintaining safety standards.
- Trained and onboarded new dishwashers, providing ongoing coaching to maintain team efficiency and safety standards.
- Maintained daily logs for water temperature and sanitizer concentration, ensuring compliance with health and safety regulations.
- Supported multiple Google campus cafeterias during peak hours, stepping in where volume was highest.

Dishwasher

Compass @ Google - Seattle, WA
July 2024 - December 2025

- Followed health and safety protocols in a high-volume Google cafeteria environment.
- Performed daily maintenance on commercial dishwashers, including chemical replacements and diagnostics to prevent downtime.
- Logged daily sanitation checks to maintain compliance with corporate health standards.
